LETTER OF RECOMMEDATION

It is a great pleasure to recommend Ms.Sania Bandekar for admission to your engineering program. She is one of the most exceptional student I have encountered with.

I know Sania for the past 2 years as she is pursuing Diploma in Electronics and Telecommunication Engineering from our institute. I taught her subjects like EEC and MWC. She is a perceptive, sharp, quick individual with a high aptitude for flip teach.

Her personal strengths are as impressive as her intellectual accomplishments. Sania is very active from the batch and always completes the assigned task before deadline. It shows her enthusiasm and commitment towards the assigned tasks. She participates and volunteers various activities organized by institute. She is also easily approachable in case of any doubts and help.

Sania Bandekar has my highest recommendation for admission to your engineering program. She has demonstrated excellence in all that she puts her mind to, whether it's designing an experiment or collaborating with others. I strongly endorse making Sania Bandekar a student of your esteemed University.

Yours faithfully,

Er. Pratik Tawde,
Lecturer,
Department of Electronics and Telecommunication Engineering,
Vidyalankar Polytechnic,
