**To Whom It May Concern**

It is with great pleasure that I recommend Sania Vighneshvar Bandekar to you. I am a Senior Consultant looking after the Electronics R&D activities at Corona Controls LLP (A Company in Vega/Corona Group, Pune & Mumbai). I am also associated with number of other companies and technology institutes in the capacity of consulting engineer/consulting faculty.

I have worked with Sania and supervised her during her stint at the organization as Intern Engineer for 5-week period from July 10, 2023, to August 11, 2023. During this tenure, she worked in the areas of Embedded Systems Design, Electronics Systems Design & Testing, Programming in C, Embedded C for Industrial products/applications.

Sania would be a great asset to any internship program. She is very sincere and hardworking and possesses analytical mind. Sania is a having excellent programming capabilities and has a very strong base of logic, to support those programming skills. Sania is a good team member and the quality I noticed that she works at ease in a team of 3-5, as I observed her at our facility. Lastly, she has very good spoken and written English communication skills.

I believe that Sania will be an excellent fit for any internship program or even as an active member of the organization, in the times to come. Sania has been nothing short of an exemplary student. If you have any further questions, do contact me at +91-9321046470 and I'll be happy to answer the queries. I wish her all the very best for her future.

Sincerely,

**Shrikant Velankar**

*Consultant & Chartered Engineer*
